Safeguarding Risk Assessment

Introduction

This risk assessment tool has been developed in line with CPSU (Child Protection in Sport Unit) guidance and The FA's Safeguarding Checklist.

It is intended to support clubs making safeguarding risk assessments where they are providing or commissioning activities for children and young people and adults at risk and/or where facilities are being hired by outside organisations.

It is intended to help you ensure that the safety and welfare of children and young people is the paramount consideration within the planning and delivery of activities specifically for under-18s or adults at risk in disability football.

Covid-19

This risk assessment during the current unprecedented times should be read in conjunction with the clubs CV-19 Risk Assessment and CV-19 Safeguarding Risk Assessment. Areas of this document are likely to be superseded with special measures or guidance in place during the global pandemic

www.thurlbytigersfc.com/covid-19

Ownership

Where activities are run directly by your club it would be expected that the Welfare Officer of the club would take the lead in ensuring that the risk assessment is completed and reviewed.

Where facilities are being hired or delivery partners are being used the risk assessment should be jointly owned with safeguarding responsibilities being identified as part of any contract of hire or Service Level Agreement (SLA).

Event/Club: Thurlby Tigers F.C

Date Completed: 01/08/2020
